## Christmas Roses **FLOWN DIRECT from HOLLAND**

(HELLEBORIS NIGER)

Miracle Winter Flower—Blooms Outdoors, Fall Thru Spring

CHRISTMAS ROSES produce many rose-like, showy flowers with bright yellow centers. Leaves are decorative and ever-green the year 'round. Each plant stands about eight inches tall, and flowers keep their beauty for many weeks. Freezing temperatures and snow won't harm them. When a cold snap catches them, they freeze solid, then when they thaw, they open up as if nothing had happened.

ORDER EARLY  
These plants are still in Holland!
